## SALT SPRAY EXPLORERS

FISHING & EXPLORING DAY TRIPS ON  
HAIDA GWAI FOR THE ADVENTUROUS  
SPIRIT

Fish and place are connected. With us, you can choose to fish, hike and/or explore the beach. When we fish, our practise is to keep the fish we catch. If we catch our limit, we set off to explore the richness of place where land and sea converge.

Our experienced local biologists/guides take you from Queen Charlotte to Haida Gwaii's rugged west coast.\* Towering trees, salmon streams, seabirds, whales and intertidal diversity await you.

Feel the kiss of salt spray on your face!

\* Interpretative trips to other parts of the Islands can also be arranged.
